ENA's Emergency Nurse Pediatric Course (ENPC) is a 16-hour course using lecture and small-group activities to provide core-level pediatric knowledge and psychomotor skills needed to care for pediatric patients in the emergency setting. The course presents a systematic assessment model, integrates the associated anatomy, physiology and pathophysiology, and identifies appropriate interventions. Triage categorization and prevention strategies are included in the course content. ENPC is taught using a variety of formats, including lectures, videotapes and includes skill stations that encourage participants to integrate their psychomotor abilities into a patient situation in a risk-free setting.

ENA’s Emergency Nursing Pediatric Course provides participants the opportunity to strengthen and develop their pediatric emergency nursing skills while expanding their personal growth by collaborating with nurses from a variety of practice settings. ENPC brings together participants from various emergency department settings as well as nurses working in other specialties of nursing.

Course Highlights
ENPC include these Pediatric-focused features:

- Performing a systematic triage assessment
- Completing an observational or "across the room" assessment
- Identifying subtle changes that indicate a worsening condition
- Helpful hints, clinical pearls, and tricks
- Cultural considerations
- Pain management
- Techniques for interacting with the child and family
- And more...

ENPC Verification
Verification will be issued from ENA with successful completion of the course. Verification remains current for four years.

Continuing Education Contact Hours (CECHs)
All participants are eligible to receive CECHs. The awarding of CECH is based on hours attended, regardless of evaluation outcomes.
### Registration Form

**ALL REGISTRATIONS MUST BE PRE-PAID.** No seats will be reserved or certificates/credit awarded without payment. No refunds or credits will be issued for incomplete coursework, failures or absences. Click here for our refund and cancellation policy. Student substitutions for a particular course are allowed up to the end of the business day preceding the course without fee or penalty. A fee will be assessed for returned checks and certificates/credit will be withheld until payment has been completed. Available seats are filled on a first come-first served basis. Only preregistered students will be notified if the course is cancelled or rescheduled. EMS & Trauma Education reserves the right to reschedule or cancel seminars for lack of interest as measured by the number of preregistered students. RWJUH (New Brunswick) employees should contact EMS & Trauma Education at 732-937-8686 (hospital x8686) for special registration information. Telephone or e-mediated registrations will not be accepted. Registrations with credit card payment can be faxed with a cover page to “Course Registration” at 732-418-8199. Students should complete the registration form below, which may be duplicated, and send it with payment to EMS & Trauma Education, Robert Wood Johnson University Hospital, One Robert Wood Johnson Place, P.O. Box 2601, New Brunswick, NJ 08903-2601

***Incomplete registration forms or those without payment will not be processed and may be returned.***

Visit Oncology Nursing Events at: [http://www.cinj.org/education/oncology-nursing-events](http://www.cinj.org/education/oncology-nursing-events)
Benefits of National Institute of Child Health and Human Development (NICHD) Terminology

- Everyone on the perinatal team speaking the same language when communicating about fetal assessment data
- Clear concise terms to minimize variation among care providers
- Consistency in medical record documentation of fetal status
- Decreased liability exposure should an adverse outcome result in litigation

Objectives

To promote integration of knowledge and skills essential to assessment, promotion and evaluation of fetal safety during labor.

This course enables participants to:

- Analyze fetal heart patterns, uterine activity and their implications for fetal well-being
- Discuss indicated clinical interventions and related maternal-fetal physiology
- Effectively communicate verbal and written data about patient status
- Describe the roles and responsibilities of health care providers in the use of FHM in intrapartum care
- Demonstrate the psychomotor skills used in FHM

*Central Jersey Family Health Consortium

Member Hospitals

Capitol Health System, CentraState Medical Center, Community Medical Center, Hunterdon Medical Center, Jersey Shore University Medical Center, Kimball Medical Center, Monmouth Medical Center, Ocean Medical Center, Raritan Bay Medical Center, Riverview Medical Center, Robert Wood Johnson University Hospital, Robert Wood Johnson University Hospital Hamilton, Saint Peter’s University Hospital, Somerset Medical Center, Southern Ocean Medical Center, University Medical Center of Princeton at Plainsboro

Intermediate Fetal Heart Monitoring Course

8:00 AM-4:30 PM

February 11 & 12, 2014
June 10 & 11, 2014

at
2 King Arthur Court, Suite B
North Brunswick, New Jersey 08902

March 18 & 19, 2014
September 17 & 18, 2014

at
25 Airport Road, Suite C
Lakewood, NJ 08701

Presented by: CJFHC Central Jersey Family Health Consortium

Day One

Participants will analyze case studies and use a physiologic-based approach to interpret fetal monitoring data.

Day Two

Participants will attend skill stations offering demonstration, practice and testing in auscultation, Leopold’s Maneuvers, insertion and placement of an intrauterine pressure catheter and fetal spiral electrode, interpretation of tracings and identification of communication, documentation, and nursing interventions.
Registration

Due to program format, space is limited. Preregistration and payment must be received 3 weeks prior to the date of the course.

Fee: Includes continental breakfast and lunch both days, nursing contact hours, participant packet and a copy of the “Fetal Heart Monitoring Principles and Practices” (Fourth Edition) textbook. Participants must read the text prior to the course and bring the text to the workshop. The text will be mailed to participants upon receipt of payment.

No additional materials are necessary to purchase for this course.

CIFHC reserves the right to cancel the program should there be an insufficient number of participants.

Directions & Parking

Directions will be sent with your registration confirmation and textbook. Do not park in reserved parking spaces or along the perimeter of the parking lot. Violators will be towed.

For more information, please call Fran LoRaso at 732-937-5437 ext. 110 or e-mail fioroso@cifhc.org

In case of inclement weather please call the CIFHC office after 6AM at 732-937-5437

Continuing Education Credit

Nurses

Participants who attend the full workshop earn 18.00 CNE’s awarded by AWHONN and will be available via AWHONN’s online CE/CME system. No partial credit will be awarded.

AWHONN holds California BRN Provider Number CEP 00580 and Alabama # ABNP0058.

Physicians

Physicians attending this course will receive 15.25 Continuing Medical Education credit for full participation. CME credit is managed by Professional Educations Services Group and will be available via AWHONN’s online CE/CME system.

Nursing Requirements

The course builds on the knowledge and skills of experienced nurses. It is designed for registered nurses with a minimum of six months clinical nursing experience using fetal heart rate monitoring technology in an intrapartum setting. LPNs and LVNs may attend this course for educational development purposes. LPNs receive contact hours and may elect to participate in the skills stations as a learning experience.

Successful completion of this course is a prerequisite for participation in the Advanced Course.

AWHONN Intermediate Monitoring Course

Registration Form

Registration closes one week in before each scheduled course.

Presents
Breastfeeding Support
The Nurse’s Role

February 19 & 20, 2014
7:15 A.M. - 4:30 P.M.

CJFHC
Central Jersey Family Health Consortium

2 King Arthur Court, Suite B
North Brunswick, New Jersey 08902
www.cjfhc.org

Objectives
By the end of this program participants will be able to:
• Identify hospital practices, public health policies, cultural beliefs and support systems that promote breastfeeding.
• Discuss the benefits of exclusive breastfeeding supported by research.
• Relate the production of breast milk to maternal hormones and newborn suckling.
• Explain how skin to skin facilitates latch and breastfeeding.
• Identify appropriate positioning of mother and baby for a successful latch.
• Relate the newborn’s states of alertness, neuromuscular development, and orientation to the ability to latch and suckle.
• Identify the signs of sufficient milk supply.
• Identify the proper equipment and hands on skills needed for instructing the mother on manual expression and pumping.
• Describe the breastfeeding challenges faced by the mother and her preterm and/or near preterm infant.
• Identify the assessments and interventions for newborns with cleft lip and palate, jaundice, hypoglycemia, and nipple aspiration.
• Select interventions for the mother experiencing nipple soreness, cracked and bleeding nipples, engorgement, and mastitis.
• Summarize factors which must be considered in individual situations associated with drugs and breastfeeding.
• Discuss the use of pasteurized donor human donor milk.
• Demonstrate at least 8 skills: breast, latch, and infant state assessments/interventions; positioning, communication, pumping, manual expression, use of alternative feeding methods, formula preparation, and suck training.

Purpose
The purpose of this two day program is to provide evidence-based breastfeeding education to nurses working in hospitals and their affiliated clinics so they can better support the mother-infant dyad.

Continuing Education
This program has been awarded 8.0 nursing contact hours for each day.

The Central Jersey Family Health Consortium is an approved provider of continuing nursing education by the New Jersey State Nurses Association, an accredited approver by the American Nurses Credentialing Center’s Commission on Accreditation.

Disclosures
There is no commercial or non-commercial support for this continuing nursing education activity.

Planners and speakers do not have any financial disclosures to make.

Presents

The PACU Course for the Obstetric Nurse

February 28, 2014
7:30am* - 4:15pm

At

Central Jersey Family Health Consortium
2 King Arthur Court, Suite B
North Brunswick, NJ 08902

Featured Faculty: Kathy Mahoney, APN. C
Charlotte Feeney. BSN, RNC-OB
Ann Muuk, MSN, RN
Ellen Shurman PhD. RNC-OB. APN

Target: This program is intended for Labor and Delivery and OB PACU Nurses

Purpose: To enhance the nurse’s knowledge of the hemodynamic changes of pregnancy, cesarean birth, the effects and potential adverse effects of anesthesia and other medications, on the patient immediately following a cesarean birth and the standards of care of the obstetrical patient in the PACU

Objectives:

- State the action, indications, contraindications, safety in breastfeeding, and side effects of drugs commonly given to women during labor, delivery and after cesarean birth to control pain and uterine/vaginal bleeding
- Discuss the organ changes of pregnancy, labor and post-delivery that may affect the patient’s physical status in the OB PACU during Phase 1 care for the post Cesarean birth patient
- Discuss the classes and effects of OB Anesthesia on the mother and baby and the rationale for nursing assessment and care in the perioperative period
- State the rationale for adhering to the standard of care of the main OR with regard to post anesthesia care for women experiencing Cesarean birth
- Discuss the assessment and care required for all post cesarean delivered women and the conditions that warrant increased surveillance and interventions including postpartum hemorrhage, pulmonary embolus, and DVT
- Identify normal sinus rhythm and at least one arrhythmia on an ECG strip
- Apply the standard of care for preventing and treating malignant hyperthermia in the perioperative period.
- Identify and discuss at least 3 patient safety measures and outcomes for perioperative obstetrical settings, including but not limited to communication, mock codes, preop screening, aseptic techniques, ongoing assessments
- Discuss how to integrate skin to skin in the OB PACU setting
- Synthesize evidence-based Phase I Post anesthesia Care to women experiencing Cesarean birth

*Course Begins Promptly at 7:30am. The course includes a pre and post-test.
Continuing Nursing Education

7.5 contact hours will be awarded for this program by Central Jersey Family Health Consortium (CJFHC).

Central Jersey Family Health Consortium is an approved provider of continuing nursing education by the New Jersey State Nurses Association, an accredited approver by the American Nurses Credentialing Center’s Commission on Accreditation.
